

PHLEBOTOMY TECHNICIAN PROGRAM

Phlebotomy Technicians are trained to perform a variety of blood collection methods. Our 126 hour program prepares you for entry level positions as a Phlebotomy Technician. We provide 63 hours of instruction in the classroom and laboratory, followed by a clinical experiences in area laboratories. Additionally, an AHA BLS for Healthcare Providers (8 hrs) and Professionalism in the Workplace (7 hrs) are given in conjunction with this course. Both are required prior to attending clinical rotations. Coursework covers vacuum collection devices, syringes, capillary skin puncture, butterfly needles, blood culture, and specimen collection on adults, children and infants. Emphasis will be on infection prevention, proper patient identification, labeling of specimens and quality assurance, specimen handling, processing and accessioning. Other topics include ethics and medical terminology. Once you have completed our program, you can receive your certification in Phlebotomy with the National Healthcareer Association (NHA) <https://www.nhanow.com/certifications/phlebotomy-technician>.

*Information is subject to change based on industry, facility, or institution requirements.

*This course can be delivered via an Online Hybrid format or In-person. Please note that CPR training must be Basic Life Support through the American Heart Association.

CAREER PATHWAY

HB 1508 -Students who have a felony conviction should check with the Program Manager of their program to determine if a licensing exam is required to be employed Some examples include but are not limited to education, nursing, cosmetology, and technology programs. Legislative changes, specifically, HB 1508 from the 85th Texas legislative session section 53.151 (2017), require notification to applicants and enrollees regarding the consequences of a criminal conviction on eligibility for an occupational license. Students may be ineligible for an occupational license upon completion of a program due to prior convictions.
